## V-Rack and Kayak on Toyota Tacoma

The V-Rack, when used with a roof rack, becomes a long truck kayak rack, a canoe rack, or a rack for carrying any kind of long cargo such as extension ladders or even hang gliders

**MADE IN THE USA !**

**V-Rack Instructions**

- The V-Rack is primarily a Kayak truck rack or a Canoe Rack; however it can be used to carry the back half of any long cargo weight up to 250 lbs\*
- Designed to be used in conjunction with any type of roof rack, the V-Rack installs directly to the rear bumper and tailgate in 5 minutes **WITHOUT DRILLING**
- No hitch receiver is necessary, and the truck rack can be mounted under the bumper-mounted ball hitch without interfering with the operation of a trailer
- Works without interfering with tonneau covers and allows you to lower the tailgate without removing the rack
- Much more stable than a typical hitch mounted rack, the 3-point V shape grips the top of the tailgate with an integrated strap system to prevent vibration and sway
- Unique Truss-design dual crossbar

The V-Rack adjusts in height and fits any size truck

The Dual Crossbar is reversible. Flip it to put the round Yakima-sized Bar On Top

or the rectangular Thule-sized Bar on Top

features a rectangular bar the same size and shape of a Thule crossbar on one side and a round bar the same size and shape as a Yakima crossbar on the opposing side. This allows easy installation of Thule, Yakima, Malone or other accessories

- Light-weight but powerful, the unique TRUSS crossbar is based on one of the sturdiest structures known to nature and engineering
- One model fits all size trucks. The crossbar is adjustable in height and can be set so the top of the crossbar is either 25. or 27 inches above the bedrail so that it will any height cab
- Has two built-in tie-down loops at the crossbars for use with ropes, straps, bungee cords or ratchet straps when tying down any type of cargo on your rack
- Available in black powder-coat. All threaded hardware is stainless steel
- Specifications: Shipping weight is 30
- U.S. Rack™ products are warranted for a period of one year against all structural defects in materials and workmanship provided that they are assembled, installed, and used in accordance with all manufacturer's specifications and instructions. U.S. Rack cannot warrant the powder-coating which is subject to scratching. See merchandize return policy

\*This rack is rated for 125 lbs

Yakima Mako Saddles

Thule Hydro-Glide

**MADE IN THE USA !**

*Ground shipping within the lower 48 states is included in the below prices*

Both types of accessories can be mounted on the V-Rack to carry Kayaks or Canoes or watercraft can be mounted directly onto the V-Rack
