for Sport or Trade**

**Here the Woody Rack is shown on a Short  
Bed Truck with the Rear Gate Attached**

The Woody Rack mounts without drilling a hole!

**MADE IN THE USA !**

- The Woody stake side Rack is designed to carry cargo such as ladders, lumber, pipe, or watercraft weighing up to 300 lbs above while it contains other cargo within the truck bed.
- Installs easily without drilling your pickup and holds securely. It can be removed in a few minutes and can be easily disassembled for more compact storage.
- Fits trucks with conventional fleetside bedrails as well as newer trucks with the Toyota deckrail and Nissan Utili-track systems.
  - We supply all metal parts, hardware, and easy instructions.
  - We also provide finished hardwood slats that are approximately 1x4 inches.
  - Bedrail padding is included to help protect truck finish.
- Can be used in conjunction with tarp or custom vinyl cover to protect bed from weather or keep contents from falling or blowing out of the bed. Cover may be easily removed, folded, and stored.
- Overhead trusses at each end support cargo weighing up to a total of 300 lbs. Overhead spanners between the End Trusses can be installed when a cover is used.
- Rear Gate is attached with latch pins and can be easily removed in seconds.
- Many anchor loops available to tie down cargo and/or cover.
- Woody Racks are available in tall and short and for long, short and extra-short truck beds.
- Specifications: Gloss Black powder coated steel. Shipping weight and size vary. Product Number 2007-1.

Vinyl tarps and Covers can be easily stored

## U.S. Rack Product Warranty

U.S. Rack™ products are warranted for a period of one year against all structural defects in materials and workmanship provided that they are assembled, installed, and used in accordance with all manufacturer's specifications and instructions. U.S. Rack cannot warrant the powder-coating on its products. See merchandise **return policy**.
